

Clever design, trouble-free function, stylish good looks and hardwearing practicality – these are the boxes you want ticked when fitting out a bathroom, and The Pure does just that.

A vanity or a basin?

The innovative new PURE is both – the two more compact sizes, 500mm and 600mm, are wall-hung basins with a clever design that incorporates space to hang a hand towel.

The larger versions – the 900mm and 1200mm – include a practical storage drawer as well, making them wall hung vanities.

A bathroom vanity made from entirely water resistant material?

The PURE basin/vanity is one of the only vanities on the market today that is completely water resistant because it's made entirely of solid surface.

Solid surface is one of the most exciting bathroomware materials available today. With a silky feel and smooth matte surface, it's incredibly durable and able to be renewed at a later stage.

It also has a seamless, non-porous finish that inhibits the growth of mould or mildew, making it extremely hygienic and a breeze to clean. Stains, including nail polish, make up and tanning products are easily removed without a trace.

Pure 500

PURE 500

Dimensions: W500 x D300 x H200mm

Tap hole options: 0 or 1

Plug and waste: Requires 32mm plug and waste without overflow

Fixing: Licensed (plumber/builder) installer is required.

Wall hang basin using fixing bolts provided in box.

Packing details: gross 49kg

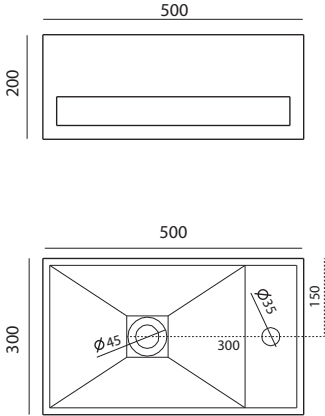

CLEANING

Clean with a soapy sponge, followed by a rinse. For stubborn stains such as lime scale or soap build up use a mild abrasive cleaner like Gumption® paste, Jif® cream or Ajax® cream or powder – use with a soft damp cloth in wide circular motions. Finish by rinsing with a clean, damp cloth.

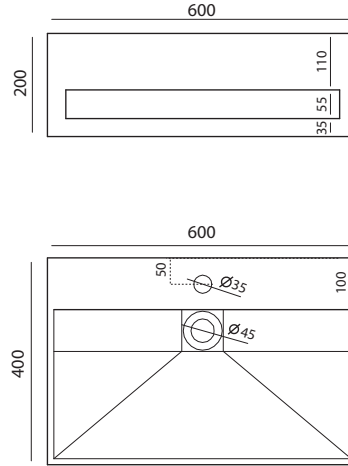

Important notes

Tapware and plug & waste not included.
7 year warranty.
